Just love Carrie and the team at the dental office. Yesterday I was a bit offended when the receptionist barked 'MASK!' At me as I was opening the door to leave the treatment area. I'm sure that was just a one-off for her as my dealings via phone are always pleasant. We need to keep protocols, but stay kind. Wouldn't have brought it up, but you sent the survey. Thanks!

- I recently had my first visit as a new patient. I delayed dental care for two years, have had plenty of work done in the past , have anxiety about dental visits, and

guilt/embarrassment about being a dedicated 2x a year proactive dental patient to skipping two years. My initial contact was on the phone with Kim who had promptly followed up to my e-mail inquiry. She was knowledgeable, organized, and patient leaving me with a sense "this place" was the right choice. Because of my delaying regular examinations my initial visit consisted of a complete evaluation and thorough cleaning by thoughtful and professional Carrie with assistance from Bethany. Dr Pedrick followed with a more detailed exam and considerate consultation which resulted in an opportunity to do work on a loose crown with the doctor and very competent Bethany. The detailed communication was a constant. I was very comfortable with "checking out". I was seamlessly referred to a local dental specialist for a consult to address some more complicated work. The entire process could not have gone better. I have complete confidence that my future dental care and challenges can be managed with the focused, competent care of Dr. Lisa Pedrick and her colleagues. Wonderful to observe such experienced, caring people helping others. D. Baker

I had a filling on a front tooth and wasn't looking forward to the Novocain injection but Noreen put the numbing gel on my gum before Dr Pedrick came in and she just put a bit the the injection in to allow the numbing to take place before giving the rest of the injection - much less painful! The procedure was very quick and what I really liked was that Dr. Pedrick wasn't happy with the way the filling looked so she removed it and did it again - fastest filling ever! Great, comfortable experience! She has a great office staff!

Very friendly staff with an outstanding doctor!!!! They beautifully cleaned my teeth, as well as explained everything they were doing, such as gun measurements and ways to avoid teeth stains- they even taught me the healthy gun measurements versus unhealthy, which mine are healthy:) No other dentist has explains this much detail to me about what they were doing, so it was an amazing experience to both have my teeth cleaned as well as educated about teeth and gums. Up front, they went above and beyond to make sure my insurance would pay 100% of the bill- I cannot thank this office enough for their dedication to their patients, and would definitely recommend Dr. Petrick's practice to anyone! Final note: I am typically afraid of the dentist to the point where I need to bring my emergency xanax with me, but during my appointment here, I was comfortable without even the slightest bit anxiety! The staff and Dr. Petrick's friendliness is a huge plus!!! Best dental practice in America!

I have a phobia about needles and had to have a cavity filled for the first time in several years. Dr Pedrick was so gentle and numbed me with a topical gel, then a little needle to numb the area where the big needle was going and I didn't feel the big one at all!! The procedure was over quickly and I was on my way! Cavity free again! Yay And I love my hygenist!! I owe my cavity free years to her great work and the cavity I did get to my lack of flossing the last 6 months.

Kim at the front desk is always cheerful. She is knowledgeable about the services the practice provides. She has helped me through the process of getting a dental crown and had a lot of information about different whitening systems. She also contacts my insurance company to coordinate coverage so I don't have to! Carrie, my hygienist, is friendly and thorough. She makes the whole family feel comfortable in her chair which isn't always easy with small kids. My 3 and 7 year olds get great service just like the grown ups. Dr Pedrick is just as friendly. When I needed a root canal, oral surgery and a dental crown she explained every step as well as any options available. Her practice goes beyond cleaning to prevention of other related disease. My husband and I have referred her practice to friends and coworkers and believe we're getting the best dental care we can.

Thanks for "straightening me out!" I am just in the final stages of invisalign and I couldn't be more pleased with the results. In just a few short months I can already see the difference. KUDOS to Dr. Pedrick for recommending this option to me. At 49, I certainly didn't want to go through 'traditional' metal braces, and Dr. Pedrick has made invisalign the clear choice for me!!!!

I had to find a new dentist once I moved and found Dr. Pedrick's website. Absolutely loved my experience and ALL of the staff. I thought my previous dentist had modern technology for dental cleaning, etc., but the equipment here was much more advanced. I've already convinced my daughter to switch dentists, and she's lived in this area for several years. I made a smart decision when I decided on Dr. Pedrick's dental office.

And Dr Pedrick always has time to talk to me about my dental needs and my childrens dental needs. she never rushes me or make me feel like I should hurry. And she always gives great referrals. Three of my five children had to have braces and we love where Dr. Pedrick refered us to, also two of my children - so far - needed to get their wisdom teeth pulled, again, Dr. Pedrick refered us to another great Doctor. I hadn't been to the dentist in many years. Last visit I got a great breakdown of what needed to be done. This visit, I got 4 resin-composite fillings to address some pretty significant cavities. When I looked in my mouth following the procedure, it was like MAGIC. Big nasty holes in my teeth had disappeared, and the teeth looked perfect, like it never happened. The experience was very positive and comfortable, fast and painless. Dr. Pedrick and the staff are all very good at what they do. Thanks!

Dr. Pedrick is both knowledgeable and skilled and she, along with her friendly and competent staff, provide excellent dental services. They are also friendly and warm and great with kids, as well as adults. Overall, great dental care. It would be nice if you took the individuals needs and requests into concern. A proactive interest in the patient with respect to what they want is needed. On previous visits, I have expressed and interest for the latest whitening techniques and products. Anything new? Anything less than \$600 and three visits? I have said I do not want "routine" X Rays more often than every three years. This visit, the lead apron was already on as I was told, "time for complete X Rays", 18 months since the last ones.

My family and I have been patients of Dr. Pedrick since 1994. Her work is impeccable and the staff is friendly and always helpful. Best of all, she is a DMD rather than simply a DDS which means that she went to medical school before specializing in dental medicine, rather than just attending dental school.
